Christie TruLife 4K projection – built tough

Now you can bring 4K, 60Hz projection on the road with the Christie® Roadie 4K ruggedized projectors. Engineered to withstand the rigors of the road and other demanding applications, the Christie Roadie 4K25 and Roadie 4K35 feature industry-leading Christie TruLife™ electronics. Capable of supporting 1.2Gpx/s operation and equivalent 25-bits processing, TruLife enables astonishing color reproduction, full connectivity – including 3G-SDI – and built-in image warping and blending.

Utilizing proven Xenon illumination, these high brightness, 3-chip DLP® projectors are available in 25,000 and 35,000 lumen models and are upgradable to true 120Hz operation. Utilizing the optional robust rigging and stacking frame, these powerful projectors are perfect for large-scale visual spectacles such as live events, location based entertainment and projection mapping.
